include recommendations related to public policy.

(f) Active Studies.—If the National Academy is
engaged in any active studies on the matters described in
subsection (c) at the time that it enters into a contract
with the Commission to conduct a study under this sec-
tion, it may base the study to be conducted under this
section on the active study, so long as it otherwise incor-

(a) MARKET RESEARCH BY COVERED PLATFORMS.—
The Federal Trade Commission, in consultation with the
Secretary of Commerce, shall issue guidance for covered
platforms seeking to conduct market- and product-focused research on minors. Such guidance shall include—

to create this type of age verification system;

(3) the accuracy of such systems and their im-
 pact or steps to improve accessibility, including for
individuals with disabilities;

age while mitigating risks to user privacy and data
security and safeguarding minors’ personal data,
emphasizing minimizing the amount of data col-
lected and processed by covered platforms and age
verification providers for such a system;

(5) the technical feasibility, including the need
for potential hardware and software changes, includ-
ing for devices currently in commerce and owned by
consumers; and

(6) the impact of different age verification sys-
tems on competition, particularly the risk of dif-
ferent age verification systems creating barriers to
entry for small companies.
(c) REPORT.—Not later than 1 year after the date of enactment of this Act, the agencies described in subsection (a) shall submit a report containing the results of the study conducted under such subsection to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Energy and Commerce of the House of Representatives.

(2) outline conduct that does not have the purpose or substantial effect of subverting or impairing user autonomy, decision-making, or choice, or of causing, increasing, or encouraging compulsive usage for a minor, such as—

(A) de minimis user interface changes derived from testing consumer preferences, including different styles, layouts, or text, where such changes are not done with the purpose of weakening or disabling safeguards or parental tools;

(B) algorithms or data outputs outside the control of a covered platform; and

(C) establishing default settings that provide enhanced privacy protection to users or otherwise enhance their autonomy and decision-making ability.
(b) Guidance to Schools.—Not later than 18 months after the date of enactment of this Act, the Secretary of Education, in consultation with the Federal Trade Commission and the Kids Online Safety Council established under section 111, shall issue guidance to assist elementary and secondary schools in using the notice, safeguards and tools provided under this Act and providing information on online safety for students and teachers.

(e) Guidance on Knowledge Standard.—Not later than 18 months after the date of enactment of this Act, the Federal Trade Commission shall issue guidance to provide information, including best practices and examples, for covered platforms to understand how the Commission would determine whether a covered platform “had knowledge fairly implied on the basis of objective circumstances” for purposes of this Act.

In this title:

(1) ALGORITHMIC RANKING SYSTEM.—The term “algorithmic ranking system” means a computational process, including one derived from algorithmic decision-making, machine learning, statistical analysis, or other data processing or artificial intelligence techniques, used to determine the selection, order, relative prioritization, or relative promi-
nence of content from a set of information that is
provided to a user on an online platform, including
the ranking of search results, the provision of con-
tent recommendations, the display of social media
posts, or any other method of automated content se-
lection.

(2) APPROXIMATE GEOLOCATION INFORMA-
TION.—The term “approximate geolocation informa-
tion” means information that identifies the location
of an individual, but with a precision of less than 5
miles.

(3) COMMISSION.—The term “Commission”
means the Federal Trade Commission.

(4) CONNECTED DEVICE.—The term “con-
nected device” means an electronic device that—

(A) is capable of connecting to the inter-
net, either directly or indirectly through a net-
work, to communicate information at the direc-
tion of an individual;

(B) has computer processing capabilities
for collecting, sending, receiving, or analyzing
data; and

(C) is primarily designed for or marketed
to consumers.

(5) INPUT-TRANSPARENT ALGORITHM.—
(A) IN GENERAL.—The term “input-transparent algorithm” means an algorithmic ranking system that does not use the user-specific data of a user to determine the selection, order, relative prioritization, or relative prominence of information that is furnished to such user on an online platform, unless the user-specific data is expressly provided to the platform by the user for such purpose.

(B) DATA EXPRESSLY PROVIDED TO THE PLATFORM.—For purposes of subparagraph (A), user-specific data that is provided by a user for the express purpose of determining the selection, order, relative prioritization, or relative prominence of information that is furnished to such user on an online platform—

(i) shall include user-supplied search terms, filters, speech patterns (if provided for the purpose of enabling the platform to accept spoken input or selecting the language in which the user interacts with the platform), saved preferences, the resumption of a previous search, and the current precise geolocation information that is supplied by the user;
(ii) shall include the user’s current approximate geolocation information;

(iii) shall include data submitted to the platform by the user that expresses the user’s desire to receive particular information, such as the social media profiles the user follows, the video channels the user subscribes to, or other content or sources of content on the platform the user has selected;

(iv) shall not include the history of the user’s connected device, including the user’s history of web searches and browsing, previous geographical locations, physical activity, device interaction, and financial transactions; and

(v) shall not include inferences about the user or the user’s connected device, without regard to whether such inferences are based on data described in clause (i) or (iii).

(6) **Online Platform.**—The term “online platform” means any public-facing website, online service, online application, or mobile application that predominantly provides a community forum for user-
generated content, such as sharing videos, images, games, audio files, or other content, including a social media service, social network, or virtual reality environment.

(7) Opague Algorithm.—

(A) In General.—The term “opaque algorithm” means an algorithmic ranking system that determines the selection, order, relative prioritization, or relative prominence of information that is furnished to such user on an online platform based, in whole or part, on user-specific data that was not expressly provided by the user to the platform for such purpose.

(B) Exception for Age Appropriate Content Filters.—Such term shall not include an algorithmic ranking system used by an online platform if—

(i) the only user-specific data (including inferences about the user) that the system uses is information relating to the age of the user; and

(ii) such information is only used to restrict a user’s access to content on the basis that the individual is not old enough to access such content.
(8) Precise Geolocation Information.—

The term “precise geolocation information” means geolocation information that identifies an individual’s location to within a range of 5 miles or less.

(9) User-Specific Data.—The term “user-specific data” means information relating to an individual or a specific connected device that would not necessarily be true of every individual or device.

(a) In General.—Beginning on the date that is 1 year after the date of enactment of this Act, it shall be unlawful for any person to operate an online platform that uses an opaque algorithm unless the person complies with the requirements of subsection (b).

(b) Opaque Algorithm Requirements.—

(1) In General.—The requirements of this subsection with respect to a person that operates an online platform that uses an opaque algorithm are the following:

(A) The person provides notice to users of the platform—

(i) that the platform uses an opaque algorithm that uses user-specific data to
select the content the user sees. Such notice shall be presented in a clear and conspicuous manner on the platform whenever the user interacts with an opaque algorithm for the first time, and may be a one-time notice that can be dismissed by the user; and

(ii) in the terms and conditions of the online platform, in a clear, accessible, and easily comprehensible manner that is to be updated whenever the online platform makes a material change to—

(I) the most salient features, inputs, and parameters used by the algorithm;

(II) how any user-specific data used by the algorithm is collected or inferred about a user of the platform, and the categories of such data;

(III) any options that the online platform makes available for a user of the platform to opt out or exercise options under subparagraph (B), modify the profile of the user or to influence
the features, inputs, or parameters
used by the algorithm; and

(IV) any quantities, such as time
spent using a product or specific
measures of engagement or social
interaction, that the algorithm is de-
signed to optimize, as well as a gen-
eral description of the relative impor-
tance of each quantity for such rank-
ing.

(B) The online platform enables users to
easily switch between the opaque algorithm and
an input-transparent algorithm in their use of
the platform.

(2) RULE OF CONSTRUCTION.—Nothing in this
subsection shall be construed to require an online
platform to disclose any information, including data
or algorithms—

(A) relating to a trade secret or other pro-
tected intellectual property;

(B) that is confidential business informa-
tion; or

(C) that is privileged.

(3) PROHIBITION ON DIFFERENTIAL PRIC-
ing.—An online platform shall not deny, charge dif-
ferent prices or rates for, or condition the provision
of a service or product to a user based on the user’s
election to use an input-transparent algorithm in
their use of the platform, as provided under para-
graph (1)(B).

(c) Enforcement by Federal Trade Commis-
sion.—

(1) Unfair or Deceptive Acts or Prac-

a rule defining an unfair or deceptive act or practice
prescribed under section 18(a)(1)(B) of the Federal

(2) Powers of Commission.—

(A) In General.—The Federal Trade
Commission shall enforce this section in the
same manner, by the same means, and with the
same jurisdiction, powers, and duties as though
all applicable terms and provisions of the Fed-

son who violates this Act shall be subject to the
penalties and entitled to the privileges and immunities provided in the Federal Trade Commission Act (15 U.S.C. 41 et seq.).

(C) Authority preserved.—Nothing in this section shall be construed to limit the authority of the Commission under any other provision of law.

(d) Rule of construction to preserve personalized blocks.—Nothing in this section shall be construed to limit or prohibit an online platform’s ability to, at the direction of an individual user or group of users, restrict another user from searching for, finding, accessing, or interacting with such user’s or group’s account, content, data, or online community.

If any provision of this title, or an amendment made by this title, is determined to be unenforceable or invalid, the remaining provisions of this title and the amendments made by this title shall not be affected.

TITLE III—RELATIONSHIP TO STATE LAWS

SEC. 301. RELATIONSHIP TO STATE LAWS.

The provisions of this Act shall preempt any State law, rule, or regulation only to the extent that such State law, rule, or regulation conflicts with a provision of this
1 Act. Nothing in this Act shall be construed to prohibit a
2 State from enacting a law, rule, or regulation that pro-
3 vides greater protection to minors than the protection pro-
4 vided by the provisions of this Act.
